

## *Essential oils*

Essential oils are wonderful, natural scincare substances. They increase the skincare products' quality and efficiency. They embalm the body, which gives a fresh and luxurious sensation.

*Never put the essential oil to the skin directly, it can cause irritation or allergy!*

**Cajeput:** for spotted skin or skin with acne and against psoriasis.

**Lemon balm:** for oily or spotted skin.

**Jasmine:** for dry or combination skin.

**Blue camomille:** for spotted, sensitive or allergic skin.

**Lavender:** for dry or sensitive skin.

**Musk:** it is great for keeping the fragrance, for all skintypes, this aroma is also recommended for men.

**Orange:** for combination skin, it is recommended for bodylotions, has a detoxicating effect and regenerates the cells, works against cellulite, protects the skin from dehydration.

**Patchouli:** it is good for the inflamed, or rough skin, has a healing effect on injured skin.

**Rose:** for mature or sensitive skin.

**Sandalwood:** for dry or sensitive skin.

**Vanilla:** for all skintypes, this aroma is also recommended for men.

**Ylang-Ylang:** for oily skin.
